### HOW TO RESTORE YOUR MUSTANG 1964-1/2-1973

by Frank Bohanan

How to Restore Your Mustang 1964-1/2-1973 is a hands-on how-to guide for restoring your first-generation Mustang. Enthusiast owners are shown how to turn a Mustang in need of restoration into a brilliant automotive jewel. While many previous restoration books have focused on authenticity and mostly overlooked the actual procedures for restoring a Mustang, this book breaks ground by detailing how to actually restore each major component group - chassis/suspension, brakes, steering, body, interior, and engine/drivetrain/differential. It provides all the relevant challenges, expenses, drawbacks, and benefits a restorer will encounter, so the owner/restorer can decide whether to do the restoration work on their own or have it professionally done. The latest techniques and best restoration products for each system are revealed and discussed. It also provides the considerations for using replacement parts versus repairing the original parts. And it specifies how to make sensible upgrades that improve safety, performance, and convenience while not adversely affecting collector value. This book takes restoration instruction to a whole new level by providing comprehensive and insightful step-by-step instruction for many of the most important procedures of a restoration.

With clear insightful color photography to accompany this how-to instruction, any at-home mechanic can confidently restore a car and save a bundle of money in the process.

S/back. 280 x 220mm (portrait). 192 pages. 525 colour photos #10763 NZ\$49.95
