CAR & TRACTOR BOOKS NZ

GENERAL EARTHMOVING — BOOKS

THE EARTHMOVER ENCYCLOPEDIA

Complete Guide to Heavy Equipment of the World

Keith Haddock This copiously illustrated encyclopedia catalogs nearly every piece of heavy equipment ever made, by model and manufacturer, from the largest dozers and diggers to smaller utility tractors and loaders. The Earthmover Encyclopedia remains the most comprehensive, exhaustive book on the worlds most hard-working vehicles and machines.

S/Back, 280 x 220mm, 320 pages, 900+ b&w photographs #10078 **\$79.95**

MOVING THE EARTH - The Workbook of Excavation

6th ed. Published 2010

H. Nicholas & D. Day

Updated to reflect methods used according to current requirements & regulations. The first 11 chapters discuss the work itself & the basic ways to do it, the machines & operation techniques, problems that arise, the application of different types of equipment, costs & management. Next 10 chapters focus on the machines themselves & operating techniques. From site preparation to blasting & tunneling, pneumatic drills to the largest power shovels, covers every step of every kind of excavating project & all the practical aspects of using the machines & vehicles involved.

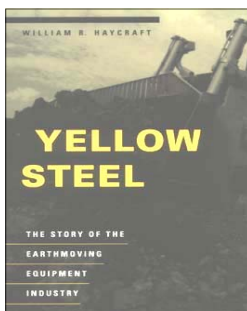

This 6th edition includes the latest in equipment & operating techniques & safety methods

Land Clearing & Controls
Surveys & Measurement
Rock, Soil, & Mud
Basements
Ditching & Dewatering
Ponds & Earth Dams
Landscaping & Agricultural Grading
Roadways
Blasting and Tunneling
Pit Operation
Costs & Management
The Machines
Basic Information
Revolving Shovels & Excavators
Conveyor Machinery
Tractors & Bulldozers
Front-End Loaders
Scrapers
Trucks
Grading & Compacting Machinery
Compressors & Drills
Auxiliary Equipment

This is 'the' reference book used by earthmoving contactors worldwide.

H/Back, 240 x 190mm, 1000+ pages, illustrated #10333 **\$229.00**

YELLOW STEEL

The Story of the Earthmoving Equipment Industry

William R. Haycraft

Haycraft shows how postwar economic & political events spurred the development of more powerful & more agile machines. He relates the fall of several major American earthmoving machine companies & the rise of Japanese competitors in the early 1980s. He also traces the efforts of manufacturers such as **Caterpillar, Allis-Chalmers, International Harvester, J. I. Case, Deere, Komatsu & Massey-Ferguson** to diversify from farm equipment to specialized earthmoving equipment

S/Back, 230 x 150mm, 460 pages, 40 illustrations #10390 **\$79.95**

CAR & TRACTOR BOOKS NZ

GENERAL EARTHMOVING — BOOKS

WALKING WITH GIANTS

By Steven Vale

Phosphates and gold in Finland, copper in Sweden, limestone in Holland, coal in Wales and Spain ... throughout Europe the raw materials for industry, construction and power are being excavated every day.

Steven Vale looks at fourteen European countries to show the diversity of surface mining machinery and techniques. He describes the regions in which the mining is set, provides information about the industries they serve and portrays some of the characters involved. Steven's fine photographs and detailed text then show the excavators, dozers, wheeled loaders and dump trucks, many of which are the largest in their classes. Some of these are veterans, others are the most modern available.

He reveals why the mine managers selected particular brands, how they feel about their selection & whether they are likely to continue with the same choices in future. He also describes how the mines are facing up to the environmental challenges which increasingly affect them. Massive machines, with famous names – Liebherr, Caterpillar, Komatsu, Hitachi, O&K, Terex, LeTourneau, Demag, Bucyrus – will give enthusiasts plenty to savour in this first book to look comprehensively at European surface mining activity.

H/Back, 320 pages, 400 photos #10796 NZ\$99.00

R.G. LeTourneau
MOVER OF MEN AND MOUNTAINS
The Autobiography
 The incredible machinery inventor
 S/Back 290 pages #10324 **\$26.00**

**R. G. LETOURNEAU HEAVY EQUIPMENT:
 THE MECHANICAL DRIVE ERA (1921-1953)**
By Eric Orlemann

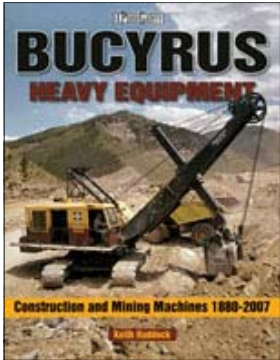

In the history of heavy equipment development, no single man's name is more respected or revered as that of R. G. LeTourneau. Robert Gilmour LeTourneau is considered by many to be the dean of high-speed mobile earthmoving equipment. His designs of the 1920s, 30s, and 40s laid the fundamental groundwork for many of the earthmoving machines we see on a daily basis. Self-propelled, rubber tired scrapers, bulldozing blades, and rippers were all conceived under his engineering genius in the quest for moving material at the lowest-cost-per-yard. The time period of 1921 to 1953 saw many of R. G. LeTourneau's most important heavy-equipment introductions, such as the Carryall and the Tournapull, and the initial development of the electric drive wheel. This first volume of fantastic machine creations covers the early years up until the sale of the \ company to Westinghouse in 1953. Standard production, specials, and experimental machines in rare archival images, some in print for the very first time, help showcase what made R. G. LeTourneau so important in the heavy equipment industry.
 S/Back, 280 x 220mm, 128 pages, fully illustrated. #10734 **\$89.95**

**R. G. LETOURNEAU HEAVY EQUIPMENT:
 THE ELECTRIC-DRIVE ERA 1953-70**
Eric C. Orlemann

This 2nd volume of fantastic machine creations covers the later years up until the sale of the company to Marathon in 1971. Standard production, specials, & experimental machines are shown in rare archival images, some being shown in print for the very first time, help showcase what made R. G. LeTourneau so important in the heavy equipment industry S/Back, 280 x 220mm, 160 pages, fully illustrated. #10780 **\$89.95**

BUCYRUS HEAVY EQUIPMENT
A Photo Gallery Construction & Mining Machines 1880-2008

Keith Haddock
 Bucyrus-Erie Company is a name synonymous with moving the earth. From the smallest loader-backhoe to some of the largest machines ever to move on land, no other company has produced such a wide variety of types & sizes of excavating equipment. With a rich heritage going back 128 years the company, now known as Bucyrus International Inc., is still designing and building some of the world's largest shovels and walking draglines. Nothing could be more apt to describe this manufacturing power house than its slogan used in the 1960s "The Longest Line on Earth." Over 450 spectacular black & white photos combined with detailed captions chronicle & describe all the major equipment product lines from Bucyrus Company, Erie Steam Shovel, Bucyrus-Erie & Ruston-Bucyrus. Every machine model from the extensive lines of cable excavators, hydraulic excavators, walking draglines, stripping shovels & drills is included, plus tables of machine introductions & production. There's also detailed coverage of floating dredges, tractor equipment, cranes, bucket wheel excavators & other special machines. This book is sure to satisfy the serious equipment historian as well as the enthusiast.
 S/back, 280 x 215mm, 222 pages, 450+ b&w photos #10756 **\$89.95**

CATERPILLAR & CRAWLERS — BOOKS

CATERPILLAR

Serial / Product
Identification
Number
Index

CATERPILLAR SERIAL & PRODUCT IDENTIFICATION NUMBER INDEX

With over 14,000 individual listings, this book provides all the Caterpillar machinery & engine identification detail: Bulldozers, Engines, Skidders, Farm Crawlers, Scrapers, Graders, Rippers, Loaders, Marine Engines, Dump Trucks, Generator Sets, Military Machines cross reference, all machines from the Best & Holt era to the D10 & D11.

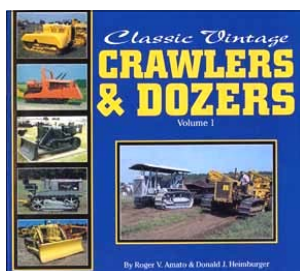

Sections:

Index by Serial / Product Identification Number, Product Identification by Model
Engine Identification Information, Military Serial Cross Reference
Vehicle Engine Usage Information, Equivalent Serial / Product
Identification Index, Details year shipped & the country the machine or engine was made in.

A very handy reference for the Caterpillar enthusiast, historian, collector, owner & operator.

S/Back, 3000 x 210mm, 134 pages, NO photos

#10759 **\$49.95**

CLASSIC VINTAGE CRAWLERS & DOZERS

By Roger V. Amato and Donald J. Heimburger

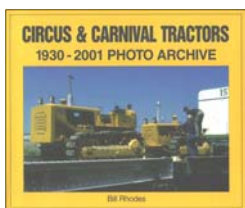

This fine book includes Allis-Chalmers and Case, as well as Caterpillar from the 1920s, 1930s and 1940s, takes a long and colorful look at the development of the crawler tractor and bulldozer. The crawler photographs and text are arranged chronologically so the reader can follow development of the machines through the years. Throughout the research period for this book, hundreds of photographs were taken at shows, and numerous illustrations were gathered from libraries, machinery manufacturing companies and from private collections, and this volume includes nearly 400 of them.

This hardcover book has 188 pages, and a complete index, appendix listings of model / years built. You won't find another heavy equipment book like it!

Chapters on: Allis-Chalmers, J.I. Case Company & Case Corp, Caterpillar

Over 400 mainly colour photos, most photos exclusive to this book !

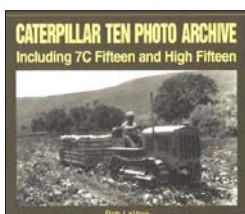

Hardcover, 290 x 260mm, 188 pages, 400+ photos, mainly colour #10551 **\$116.00**

CIRCUS & CARNIVAL TRACTORS 1930-2001 Photo Archive

Bill Rhodes

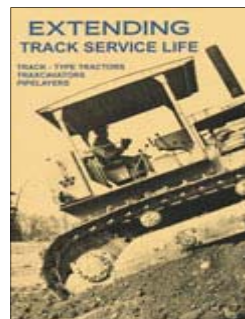

Action photos of crawlers & farm tractors adapted by circuses to lift & pull wagons, load trains etc. Lots of Caterpillars, IH, Ford, MH, Case & more! Some excellent shots of tractors at work.

CATERPILLAR TEN Photo Archive, Including 7C Fifteen & High Fifteen

By Bob Lavoie This is the first photographic history of the smallest of the Caterpillar line. These tractors were born and raised in the years of research and development. They were sold through the controversial color change of 1931, and today they are some of the most highly sought after Caterpillar tractors. Includes rare photos from the Caterpillar Inc. corporate archives

S/Back, 260 x 215mm 128 pages, 115 b&w illustrations #10072 **\$69.95**

EXTENDING TRACK SERVICE LIFE

TRACK - TYPE TRACTORS, TRAXCAVATORS, PIPELAYERS

This useful booklet is devoted to assisting owners, operators & maintenance personnel in achieving successful operations through productive maintenance of the track & undercarriage components

S/Back, 300 x 210mm, 36 pages #11020 **\$18.95**

CRAWLER TRACTOR SCRAPBOOK: Part Two

Richard Robinson

This book takes a look at many crawlers & bulldozers such as Allis Chalmers, Bryden Trackpack, Clark, Terratrak, Case, Fiat, Fowler, Marshall & Track Marshall, Komatsu, International Harvester, Lanz, John Deere, Loyd, Vickers, David Brown & Roadless.

Interesting features & superb colour photos of NZ's 'beach tractors' - those crawlers & dozers used for towing out fishing boats, Caterpillar D-6, D-4, David Brown, Track Marshall, Allis-Chalmers HD11, Komatsu & others.

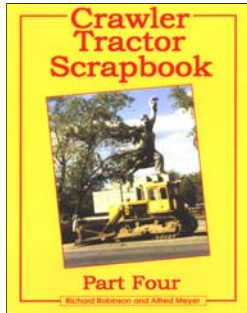

Great material on the Vickers Vigor, VR-180, production / model data on the Komatsu range, interesting technical detail & drawings of the BTD-6 Tracklayer, BTD-5, & BTD-640.

How to set the tracks up on the Track Marshall 55, 70C & 70H tracklayers, plus some great colour photos of Track Marshalls here in NZ.

Pages of technical detail about Fowler & Marshall, including the Fowler Challenger Mark III.

Lists production / years for some makes, repair / overhaul details from service manuals - a truly interesting book!

S/Back, 300 x 210mm, 160 pages, over 300 photos in colour and b&w #10002 **\$40.00**

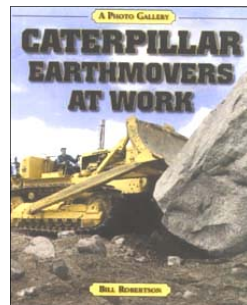

CRAWLER TRACTOR SCRAPBOOK: Part Four

by Richard Robinson

More British crawlers, Chinese, Russian, East Europe, more Japanese, Fiat Allis, Hitachi & more!

This book is amazing - it features dozens & dozens of common & not-so-common makes of crawlers & dozers.

S/Back, 300x210mm, 160 pages, 290+ photos, approx 200 colour photos #10004 **\$40.00**

CATERPILLAR EARTHMOVERS AT WORK A Photo Gallery *by Bill Robertson*

Features Caterpillars in action moving massive amounts of rock, dirt, trees & anything else in their path. See these machines used in forestry & logging, road construction, railway construction, and hydro-electric power projects, mining & much more. For the 'Cat' fans!

S/Back, 280 x 220mm, 160 pages, 305 b&w photos #10068 **\$79.95**

CAT & ZEPPELIN *by Heinz-Herbert Cohrs*

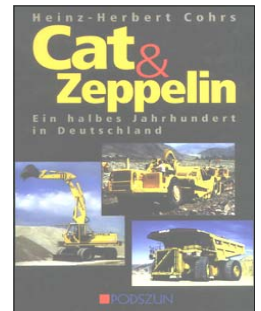

Zeppelin is the German equivalent of 'Goughs' - this book looks at the Caterpillar machinery handled by this large European distributor over the years.

Superb photos of the machinery, old & new, pre-war to modern day.

The text is in German, the photos make up more than 75% of the content.

H/back, 280 x 210mm, 200 pages, 405 photos, mainly colour

NOTE: German Text #10511 **\$79.95**

ROADBUILDING CONSTRUCTION EQUIPMENT AT WORK

Building the early Interstate highways through New England's Green Mountains

By Edgar A. Browning

This photo essay details the construction of the original Interstate Highway System in Vermont's picturesque and largely rural mountainous region through the late 1950s to late 70s.

During this short time, contractor driven construction equipment innovation was remarkable:

2 1/2 cubic yard shovels were replaced with 4-8 yard shovels and then by

massive wheel loaders up to 17 cubic yards; 15-22 ton rock trucks were upped to 50 tons;

Rudimentary spreading methods with dump trucks using tailgate chains were replaced with CMI

Autogrades; and many contractors devised and built ingenious contraptions to

increase production. The work attracted many large established road building firms from other States

- Lane, Perini, Palazzi, L. G. Defelice, Green Construction from Des Moines, Iowa, as well as Cartier

Construction, a division of McNamara from Montreal - seen here clearing and grubbing, pioneering,

rock drilling, mucking peat bogs, and excavation sequences including trucks and shovels, loaders,

pan scrapers, and a wheel excavator. The manufacturers of

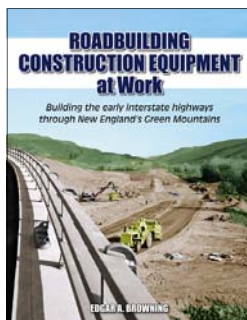

construction equipment constitute a virtual directory of the period; Caterpillar, Euclid,

Allis-Chalmers, International, Dart, P&H, Bucyrus-Erie, Northwest, Lorain, Lima, Gradall,

Barber-Greene, Blaw Knox, CMI, and more

S/Back, 280 x 220mm, 126 pages, 250 b&w illustrations / photos

#10799 **\$75.00**
